

MONGOLIAN PHYSICAL SOCIETY

Mongolian Journal of Physics
ISSUE № 1.

National University of Mongolia Printing House
Ulaanbaatar
2016

Announcement from Editorial Board:

Mongolian Physical Society is proud to announce a call for papers in the Mongolian Journal of Physics. This is the first peer-reviewed physics journal in English in the country with a target to the global physics community and is managed and published by Mongolian Physical Society. A submitted paper can cover any field of study in physics as long as the subject is relevant to current problems of physics.

Editor in Chief: Ts. Enkhbat, (Acting editor)

Nuclear Research Center, National University of Mongolia (NUM)

Editors: J. Davaasambu,

Department of Physics, NUM

U. Pietsch,

University of Siegen, Siegen, Germany

O. Tegus,

Inner Mongolian Normal University, PRC

Ts. Baatar,

IPT, Mongolian Academy of Sciences

G. Ganbold,

JINR, Dubna, Russian Federation

D. Battogtokh,

Virginia Polytechnic & State University, USA

G. Khuukhenkhuu,

Nuclear Research Center, NUM

P. Enkhbayar,

School of Applied Sciences, NUM

D. Orlokh (Deceased),

IPT, Mongolian Academy of Sciences

Ts. Baatarchuluun,

Department of Geology & Geophysics, NUM

Publishing board: D. Munkhkhishig,

IPT, Mongolian Academy of Sciences

B. Naranbat,

IPT, Mongolian Academy of Sciences

N. Tuvjargal,

Department of Physics, NUM

Mailing address: University Street-1, Sukhbaatar District,

Ulaanbaatar-210646, Mongolia

Website & e-mail: www.mnglps.mn, enkhbat@ipt.ac.mn

CONTENTS:

AUTHORS	TITLE	PAGE
Ts. Baatar, R. Togoo, B. Batgerel, A. I. Malakhov, G. Sharkhuu, B. Otgongerel, T. Tulgaa	<i>Thermodynamical characteristics of the secondary particles produced in π^-C interactions at 40 GeV/c as a function of the cumulative number n_c</i>	1
D. Battogtokh	<i>Nonequilibrium Ising Bloch Transition in Forced Nonlocally Coupled Oscillators</i>	11
T. Begzsuren, G. Monkhubayar, M. Otgonbaatar, G. A. E. Vandenbosch	<i>Studying Topology for Nano Antenna</i>	23
S. Chagdaa, G. Gombojav, E. Galsandorj, E. Laermann	<i>GPU-accelerated simulation of $SU(2)$ flux tube profiles</i>	33
S. Munkhtsetseg	<i>Kinetic study of coal under heat treatment</i>	44
Kh. Namsrai, B. Munkhzaya, M. Purevkhoo	<i>Finite Quantum Electrodynamics</i>	55
M. Otgonbaatar, J. Davaasambuu G. Munkhubayar, P. Schupp	<i>Cosmic Microwave Background Anisotropy Analysis</i>	78
N. Tuvjargal, J. Davaasambuu, U. Pietsch	<i>Theoretical investigation of the piezoelectric effect in Berlinite</i>	95
